

## [ PM ] - Project Manager

[Apply Now](#)

Company: SHL Group

Location: Taiwan

Category: other-general

### **Job Overview**

A dedicated and experienced Project Manager with strong technical background, attention to detail and a background in product development and industrialization in the medical device or pharma industry.

### **Main Responsibilities**

Lead new product introduction projects with a multi-disciplinary team of highly skilled experts.

Plan and manage all aspects of the project life cycle (design, engineering, tech transfer, validation, launch, scale-up).

Establish and maintain appropriate structures to ensure communication, flow of information and documentation within the project.

Responsible for project deliverable, schedule, cost and quality as well as reporting directly to relevant stakeholders within the organization.

Cross-functional role with strong interaction with various departments, internal stakeholders, suppliers and customers.

Ensuring effective implementation of requirements enabling fast ramp up of production and benefit realization.

### **Required Skills & Qualifications**

Degree in Engineering or Applied Sciences.

5+ years of relevant industry experience in product development, NPI, industrialization, scale-up and high-volume production.

Project management experience in highly complex areas with numerous stakeholders; proficient in corresponding PM methodologies and tools.

Experience with plastic injection molding, tooling and automated assembly processes would be a plus.

Experience in one or more of the following areas: GMP production / medical device quality systems (i.e. ISO13485, GMP, FDA CFR21) / supply chain management / contract manufacturing.

Combination product experience is an asset.

Six Sigma experience preferred.

Strong intercultural and interdisciplinary communication skills; excellent written and verbal English.

Experience in international collaboration programs and good at building professional networks

Able to work under pressure to achieve short-term targets without compromising long-term objectives.

Capable of handling communication and cooperation with stakeholders over distance.
