Company: Crypto.com

Location: Taiwan

Category: other-general

What will make your role exciting First & foremost - work on high-impact and diverse projects- You will have the opportunity to advise management on emerging industry trends and key business decisions, optimize key processes, and orchestrate key initiatives. Your work will be important to our business growth and sustainability, and cover a broad spectrum of topics. Own your initiative from end to end- You get to experience the full product cycle - from conception of an idea, to product launch, and ongoing KPI monitoring. You get to see the results of your recommendations & decisions with live data reporting. You get to truly own initiatives that you help to design & continuously improve, from end to end. Learn something new every day- Most if not all projects are cross-functional, meaning you will be sitting at a roundtable or brainstorming on a whiteboard with colleagues & experts from diverse backgrounds - blockchain engineering, mobile development, cybersecurity, customer acquisition, fraud management, banking & finance...

Responsibilities:

What a day on your job may look like

There is no such thing as a “typical” day at - our ethos is to move fast, iterate fast, and dance to the changing tune! That being said, below are some activities you may find yourself taking up:

Developing thematic research memos to advise on market/ sub-sector strategy;

Designing & drafting requirements for a new product or feature;

Coordinating cross-functional projects end-to-end from timeline/ deliverable planning to

tracking/ reporting;

Deciding & analyzing product KPIs and recommending improvements;

Evaluating & driving strategic and investment opportunities;

Discovering potential areas for collaboration with external partners, and initiating & driving conversations;

Projecting business results and discussing implications with management.

Overall, you will shoulder the important responsibilities of:(a) at a product level, design & drive new features to success,(b) at a company level, define & align business priorities with management, and(c) at an industry level, generate insights & your own views on the market.

Requirements:
